

BERTONERI

Volume III

BERTONERI

Over 200 years ago in the hills above Tuscany, Geovanni Bertoneri began work on his first marble fireplace. Taking brilliant white marble, from the same area where Michaelangelo himself sourced stone used in his sculptures. The Bertoneri name has been synonymous with the finest fireplaces ever since.

The real craft of making a fireplace begins with nature. Over the millennia, natural processes have created & compressed grains of sand & minerals to produce extremely varied & colourful patterns. Owing to this naturally formed beauty, marble was the favoured medium for classical sculptors & architects. Since then it has become a cultural symbol of tradition & refined taste.

At Bertoneri, we do the easy bit, carefully crafting & shaping what nature has created into a beautiful fireplace for your home. Our collection of stone & marble fireplaces feature the latest in contemporary design as well as traditional & classical favourites.

Images in this brochure are for illustration purposes only. Information is correct at time of printing. Products purchased may differ in specification or appearance from those shown in this brochure. Please check with your local Bertoneri Marble retailer before purchase. Please note that there are variations in same marble forms as its a natural stone.
